

Join BCP's Sustainers' Circle:

A community of multi-year donors committed to pediatric health equity.

Boston Community Pediatrics (BCP) is at a critical inflection point. BCP is doubling its footprint at 527 Albany Street, expanding services to meet growing patient demand, and embarking on an evaluation to demonstrate the model's success. To realize the long-term vision and mission of replicating the practice, BCP needs to raise \$8M in strategic philanthropic capital over the next three years.

The Path Forward: Proof of Concept

BCP opened its doors in November 2020, at the height of the COVID pandemic. Despite these challenging circumstances, the community responded enthusiastically. In under three years, BCP has grown to serve over 1,300 patients on-site at its flagship location in Boston.

In addition to providing exceptional pediatric primary care, BCP's innovative and intersectional model has expanded the definition of what it means to be healthy by incorporating three main programs:

- Integrated behavioral health services
- Care navigation to address the social determinants of health (SDOH)
- Pediatric wellness support

There are many investments to make in children; funding comprehensive pediatric healthcare is one of the most important investments to close the persistent economic and educational gaps between low-income children and their higher-income peers.

BCP's flagship office aims to create the first nonprofit pediatric private practice in Massachusetts to be used as a model for replication, both locally and nationally.

Become a Member of BCP's Sustainers' Circle

To realize the long-term vision of expanding BCP's model, BCP needs to raise \$8M over three years (2023 - 2025).

Your philanthropic support will fund:

- Capital costs for the second-floor expansion
- Expanded staffing to serve more patients, provide more behavioral health services, and more fully address families' social determinants of health
- A multi-year, full-scale evaluation of BCP's model in preparation for replication

Help make BCP's dream of equity in pediatric care a reality today, tomorrow, and for years to come. Become a member of the Sustainers' Circle today!

Donors are able to fulfill their pledges over three years and will be recognized at the level that corresponds with their total gift amount.

All donors will be recognized with a customized brick on the wall in BCP's expanded space with your name or a short message. Naming opportunities for BCP's offices and patient rooms are available. Please contact Dr. Robyn Riseberg for further discussions at robyn@bostoncommunitypediatrics.org.

Thank you for joining our movement!
